

Red-on-line acquires Pegasus EHS Software to broaden its European Footprint

May 2021

Red-on-line, a leading EHS software and content provider announced that it acquired Pegasus Legal Register, an Irish based EHS software provider.

Headquartered in Limerick, Pegasus delivers a cloud-based platform to over 600 multisite, multilingual, multi-jurisdictional customers often operating in heavily regulated industries.

The acquisition of Pegasus strengthens Red-on-line's position in Ireland and the UK and complements its unique position in the market as both a leading EHS regulatory content expert and advanced software solutions specialist (Legal compliance, Incident management, Risk management, Sustainable report, etc.). Since its founding in 1999, Red-on-Line has built an international business covering 165 jurisdictions and servicing 2,000 clients worldwide.

Commenting on the acquisition, Laurent Pitoun, Managing Director of Red-on-line, said:

"At Red-on-line we have long respected Pegasus' legal expertise in EHS, deep knowledge of the stringent requirements required to meet ISO certifications (including ISO 9001, ISO 14001, ISO 27001 and ISO 45001) and their unwavering commitment to their clients in helping them reduce legal compliance risks with detailed and tailored solutions relevant to their operations. With a deeply complementary client portfolio product, the combined companies have an opportunity to serve our clients more effectively. Together with the talented and dedicated team at Pegasus, we will build on our respective strengths and

cement our position as a leading EHS content and software provider and make our products and services available to even more customers worldwide."

Further, Gerard Higgins, Founder of Pegasus added:

"This combination presents a unique opportunity to reinforce our leading position in Ireland and the as well as better serve our customers worldwide. Together with Laurent, we have already begun identifying opportunities to widen the products and services beyond our existing focus on regulatory monitoring and compliance and we also look forward to benefiting from Red-on-Line's expertise and technological capabilities."

Red-on-line is an integral part of Infopro Digital, a leading independent provider of business-to-business ("B2B") data and software platforms, committed to servicing professionals across multiple sectors internationally. Infopro Digital creates information, data and technology solutions to connect professional communities. Infopro Digital delivers its products by leveraging a deep understanding of its clients and the professional communities in which they operate. Through its platforms, its clients are able to make better business decisions based on better insights, achieve stronger results and be more efficient and effective in their day-to-day activities. Infopro Digital was founded in 2001 and has a global presence with offices across Continental Europe (including the UK, France, Germany, Spain, Italy, Belgium and the Netherlands), North America and Asia Pacific.
